

The Private Infrastructure Development Group mobilises private investment in infrastructure in the frontier markets of sub-Saharan Africa and south and south-east Asia to boost economic development, combat poverty and meet the global SDGs.

PIDG makes it viable for private investors to participate in high quality infrastructure deals using limited sums from its publicly funded trust to crowd in many times that value in private capital.

With a unique focus on infrastructure in low-income countries, where the need is greatest and investment is scarce. PIDG's pioneering approach is outstanding – it changes lives.

PIDG's specialist companies work with private sector partners along the infrastructure development cycle and across the capital structure, helping to overcome technical, environmental and financial challenges.

Many of PIDG's investments are first-of-a-kind infrastructure activities, which provide examples that can be replicated by the private sector.

For every \$1 of PIDG member funding, projects PIDG has supported have mobilised \$23, of which \$17 comes from private sector financing.

PIDG's model is agile and can adapt quickly to fill new market gaps in its target countries, deploying funds where others cannot or will not, to support infrastructure where it is most needed.

How PIDG companies support the infrastructure development cycle

Technical assistance

TAF grants support the work of PIDG companies at any stage of the cycle, including feasibility studies and viability gap funding.

DevCo helps fund transaction advisory services to governments on PPPs, delivered through the World Bank Group's IFC.

Project preparation

InfraCo Africa and **InfraCo Asia** provides risk capital and expertise to develop early-stage infrastructure projects. The InfraCos also have the ability to make equity investments in innovative and pioneering projects, or to remedy the absence of capital.

Debt, guarantees and mezzanine

EAIF provides long-term foreign currency loans.

GuarantCo provides local currency guarantees to banks and bond investors to develop local capital markets.

PIDG is a multi-donor organisation with Members from seven countries and the World Bank Group.

KIPP | Tema, Ghana | with Cenpower Holdings

Ghana, Kpone Independent Power Project

350MW combined cycle gas turbine plant

PIDG companies **InfraCo Africa** and **EAIF** helped develop and finance Ghana's Kpone Independent Power Plant (KIPP). **TAF** provided additional grant funding for feasibility studies.

The plant will provide approximately 10% of Ghana's total power generating capacity when it becomes commercially operational in 2018.

KIPP was the first private sector power plant in Ghana and the first project of its kind in sub-Saharan Africa to attract investment from Japan's Sumitomo Corporation.

Coc San hydropower | Vietnam | with Lao Cai Renewable Energy

Vietnam, Coc San hydropower plant

29.7MW run-of-river hydropower plant

PIDG companies **InfraCo Asia** and **TAF** provided crucial early-stage funding and development expertise for the Coc San hydropower plant in northern Vietnam's Lao Cai Province.

The project is now providing a more affordable, reliable power supply to 130,000 households, reducing the need to import expensive and unreliable power.

Coc San attracted foreign direct investment in hydropower to the province for the first time. InfraCo Asia's support enabled the project to overcome challenges in attracting private sector capital.

Mobilink | Pakistan | with Pakistan Mobile Telecommunications Ltd (Mobilink)

Pakistan, Mobilink

Backing the expansion of telecoms networks in rural areas

PIDG company **GuarantCo** partially guaranteed a local currency Sukuk (Islamic bond) to secure domestic private sector investment in telecoms company Mobilink, allowing it to expand mobile networks.

GuarantCo attracted funding from investors with a ground-breaking Islamic bond, the first of its kind in Pakistan.

The project will improve mobile telecoms access for six million people in rural areas and will enable expansion of an SMS-based literacy programme for women and girls, supported by **TAF**.
