

Grant Title		TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
1	Africa Energy Forum	3 100	Uganda	GuarantCo	2013	Completed	1e - Capital Market Development	Partially cover the costs of participation in the Africa Energy Forum by Dr. Benon Mutambi, CEO of the electricity Regulatory Authority of Uganda. Specifically, this grant will fund some of the travel costs associated with Dr. Mutambi's trip to the forum, held in Barcelona in June.
2	African Debt Capital Markets Summit	20 000	Multiple Countries (SSA)	GuarantCo	2014	Cancelled	1e - Capital Market Development	Partially cover the costs of participation in the African Debt Capital Markets Summit by senior officials representing the Nigerian SEC and the Pension Commission. Specifically, this grant will fund travel costs associated with two round trips to the summit, held in London in June. The Nigerian officials will participate in a special session on debt capital market reforms in Nigeria, hosted by GuarantCo.
3	African Rental Housing Conference	11 000	Multiple Countries (SSA)	GuarantCo	2014	Completed	1e - Capital Market Development	Cover the costs of participation in the African Rental Housing Conference by two keynote speakers who will represent GuarantCo at the conference. Specifically, this grant will fund travel costs associated with two round trips to the summit, held in Nairobi in October.
4	Antara Cold Storage Project	400 000	Vietnam	InfraCo Africa	2007	Completed	1b - Funding of Pre-Feasibility Study	Assist with preparation of an Investment Review for project approval by the Government as well as technical, financial, and environmental studies, including: (i) Market/Feasibility Study;(ii) A preliminary engineering and geological study. (iii) Logistics Study; (iv) Environmental Assessment; (v) Identification of needs, delivery mechanisms, and implementation of training for facility operators, processors, the fishing community and others.
5	Bangalore Water Concession	300 000	India	DevCo	2005	Cancelled	1a - Capacity Building Support	Support the work of a local NGO (Janaagraha) to be hired by the client to undertake a door to door, community-level campaign to enlist subscribers, collect connection fees, and engage community support and participation in this greenfield water distribution project.
6	Bangladesh Drinking Water Project	73 000	Bangladesh	GuarantCo	2014	Cancelled	1a - Capacity Building Support	Partially cover the costs of three activities designed to help set up a drinking water treatment and distribution operation in Dhaka, Bangladesh: (i) a detailed market study; (ii) a review of legal and regulatory requirements; and (iii) a consumer awareness program.
7	Bangladesh Power Generation	300 000	Bangladesh	InfraCo Asia	2012	Cancelled	1a - Capacity Building Support	Partially cover the costs of three activities in Bangladesh: (i) an analysis of key challenges to private investment in the power sector; (ii) an assessment of the availability and allocation of natural gas in the country; and (iii) an assessment of the feasibility of establishing a power professional training institute in Bangladesh..
8	Beira Corridor	117 395	Mozambique	InfraCo Africa	2004	Completed	1b - Funding of Pre-Feasibility Study	TAF funding will contribute to: (i) identify priority horticultural investment opportunities; (ii) identify, analyze, and prioritize infrastructure requirements critical to the success of these ventures; (iii) recommend appropriate commercial and financial structures for the resulting horticultural and infrastructure business opportunities, particularly as regards to the best form of effective sponsorship of the ventures.
9	Beira Land Development	430 000	Mozambique	InfraCo Africa	2006	Completed	1b - Funding of Pre-Feasibility Study	Specific activities to be funded through the TAF grant include: 1. A strategic development plan. 2. Refinement (review and update) of project costs. 3. Market study of demand for residential, commercial and industrial land in the Beira area. 4. Review and recommendations regarding financial mechanisms to support low-income citizens' access to housing and infrastructure. 5. Further refinement of a financial model. 6. Environmental impact study and further study of optimal technical solution incorporating water, sewerage, electricity, and drainage in the residential/industrial development plan. 7. Identification of government obligations with respect to capital and recurring expenses in the short and medium term associated with the project. 8. Assessment of availability of investment capital for the BLDC as well as sources of mortgage financing (OPIC supported) for potential purchasers of lots. 9. Review of legal, judicial and regulatory issues with respect to a private sector entity providing land development services and title transfers. 10. Provision of technical assistance to Government and City of Beira to strengthen their capacity to develop and manage a city development strategy, rationalize public financial management, and promote/manage public private partnerships.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
10 Benin Port Concession	150 000	Benin	DevCo	2012	Completed	1d - Post-Transaction Support	Partially offset costs of technical and legal services needed to help the Benin government meet its obligations under a port concession agreement with a private investor/operator. In order for the concession to become fully operational, the government needs to make certain improvements to the port. The government hopes to be able to finance the improvements from its budget or with funding from other donors, but first needs help with technical specifications and terms of reference for contractors.
11 BidCo Palm Oil Kalangala Infrastructure	375 000	Uganda	InfraCo Africa	2005	Completed	1b - Funding of Pre-Feasibility Study	Develop jointly with the Government of Uganda a development plan for provision by the private sector of infrastructure and services (electricity, roads, and ferry services) on the Island of Bugala in the Kalangala District.
12 Bumbuna Hydropower II Supplemental	400 000	Sierra Leone	EAFI	2013	Ongoing	1a - Capacity Building Support	Partially cover the costs associated with hiring a project manager to assist the Government of Sierra Leone (GoSL) with the Bumbuna II Hydropower Project. This is the second TAF grant requested for this activity.
13 Calcom Cement - Capacity Building Programme	34 000	India	GuarantCo	2011	Completed	1d - Post-Transaction Support	Partially offset the costs associated with on-the-job capacity building support needed by the management of Calcom Cement of Assam, India. The support is needed so that Calcom's managers can resolve problems that threaten successful implementation of a program they are implementing in collaboration with GuarantCo and other investors.
14 Calcom Cement - Legal Assistance	64 000	India	GuarantCo	2008	Completed	1b - Funding of Pre-Feasibility Study	Partially finance additional legal costs and expenses associated with getting Government of India approval for GuarantCo's guarantee of financing for a local cement manufacturer.
15 Calcom Cement Development Add-on	74 440	India	GuarantCo	2014	Ongoing	1c - Developmental Additions	Partially offset the costs associated with a program to roll out fuel-efficient cooking stoves and small-scale solar power solutions in the village areas around the Calcom Cement facility in Assam, India
16 Cambodia Salt Farm Development	400 000	Cambodia	InfraCo Asia	2012	Completed	1b - Funding of Pre-Feasibility Study	Partially cover the costs of two activities: (i) preparation of an Environmental & Social Impact Due Diligence Review ("DD Review") and an Environmental & Social Impact Assessment ("ESIA Report"), and (ii) design and implementation of a sectoral capacity development strategy for government officials and industry associations. The DD Review and ESIA Report are eligible for TAF support because the work will be unusually expensive, done to international standards, using World Bank standards and templates.
17 Cameroon Agribusiness	215 000	Cameroon	GuarantCo	2015	Ongoing	1b - Funding of Pre-Feasibility Study	Partially cover the costs of three analytical activities required for progress to be made on an agribusiness project in Cameroon: (i) a legal analysis of contract documents; (ii) an analysis of an environmental and social impact analysis (to ensure that it meets international standards); and (iii) an assessment of construction contracts and equipment purchase agreements.
18 Cape Verde Wind Power - Cabeolica	74 000	Cape Verde	InfraCo Africa	2009	Completed	1a - Capacity Building Support	Partially finance independent consultation and advice to the Government of Cape Verde (GoCV) in their review of the terms and conditions of contractual agreements between the developer of a public/private wind power project and the Government.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
19 Cape Verde Wind Power Development	395 000	Cape Verde	InfraCo Africa	2007	Completed	1b - Funding of Pre-Feasibility Study	To provide capacity building in planning, evaluation, design and implementation of development activities for both government and the local private sector. Consultant activities will include substantial knowledge transfer and capacity building working with local government officials and Electra (state-owned utility company) personnel. Most of the studies proposed for co-financing by TAF go beyond the specific wind project being developed, to help establish and enhance capacity within Government and Electra to anticipate, provide incentives for, and plan for cost-effective, sustainable social and economic development with greater participation of the private sector.
20 Cape Verde Wind Power Development Add-on	74 500	Cape Verde	InfraCo Africa	2012	Cancelled	1c - Developmental Additions	Partially finance: (i) feasibility assessments, planning, procurement, project management, and project quality control in support of several already agreed-on road and landfill projects near the wind farms (part of a larger program sponsored by the Municipality of Boa Vista (CMBV)); (ii) direct project delivery costs associated with these projects; and (iii) planning, preparation and management of additional social projects to be identified jointly by the government.
21 Capital Markets Diagnostic Pilot Project	505 000	Africa & Asia	GuarantCo	2010	Declined	1e - Capital Market Development	To analyze and address constraints to capital market development/strengthening in 5 countries in Africa and South Asia: (i) Desktop diagnostic of Africa and Asia with a view to select 5 countries (regional split) which offer most promise for growth in capital markets with relevance to infrastructure development; (ii) Development of a data base with detailed analysis of chosen countries; (iii) Recommendations for removing barriers to capital markets growth, including further funding to effect change where appropriate. (iv) • Efficient dissemination of analysis and proposed actions through seminars/workshops in the selected countries and to other interested parties. (v) Linkage of the database to the PIDG Website and others as appropriate with access to a wide base of stakeholders.
22 Celtel Chad Financing	50 000	Chad	GuarantCo	2007	Completed	1b - Funding of Pre-Feasibility Study	To help finance a portion of additional legal costs resulting from the use of civil law in Chad rather than English common law upon which GuarantCo guarantees have been based.
23 Central Asia PPP Capacity Building	120 000	Kyrgyz Republic, Tajikistan, and Kazakhstan	DevCo	2014	Completed	1a - Capacity Building Support	Partially offset costs associated with the delivery of two, two-day training forums designed to introduce 110 public and private stakeholders to ways in which PPPs can be implemented in a financially, socially, and environmentally sustainable manner. The two forums would involve participants from three Central Asian countries: Kazakhstan, Tajikistan, and the Kyrgyz Republic.
24 Chad Oil Products Distribution	18 000	Chad	GuarantCo	2014	Completed	1b - Funding of Pre-Feasibility Study	To cover half of the costs of a “financial environment assessment” needed to assess the viability of a credit-enhanced subordinated debt facility for an oil products distribution company in Chad. The assessment will provide in-depth information about the company and the legal-regulatory-procedural dimensions of its financial environment.
25 Chad Solar ESIA	319 200	Chad	InfraCo Africa	2016	Grant Letter	1b - Funding of Pre-Feasibility Study	Partially offset costs associated with an Environmental and Social Impact Assessment and related analyses/reports for a solar IPP transaction to reach financial closure in Chad.
26 Chad Solar IPP Advisory	523 000	Chad	InfraCo Africa	2016	Grant Letter	1a - Capacity Building Support	Partially offset costs associated with legal advisory work needed by the government to prepare various documents required for a solar IPP transaction to reach financial closure in Chad.
27 Chanyanya Infrastructure Company – Cooperative Training	520 000	Zambia	InfraCo Africa	2008	Ongoing	1c - Developmental Additions	Partially finance the purchase of needed irrigation equipment and other inputs, as well as development and provision of training, capacity building, and other technical assistance to a newly-established farmers’ co-operative in the Chanyanya area of Zambia.
28 Chiansi Irrigation	400 000	Zambia	InfraCo Africa	2006	Completed	1a - Capacity Building Support	This Grant would help finance the studies and training needed to develop a water management company to construct, operate, and maintain an irrigation system needed to increase agricultural production of sugar, as well as maize and wheat.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
29 Coc San Hydropower Project	5 000 000	Vietnam	InfraCo Asia	2013	Ongoing	3 - Viability Gap Funding	A VGF grant of US\$5 million will be needed to close the gap between the expected revenues (determined by a government tariff regime that includes special tariffs for poor customers) and the revenues required to cover all capital costs, operating and maintenance (O&M) costs, and earn a reasonable return on investment.
30 Colombo Waste Water	250 000	Sri Lanka	GPOBA	2006	Cancelled	1d - Post-Transaction Support	This Grant would be used to assist the National Water Supply and Drainage Board to carry out necessary studies, evaluations, and other activities to test the concept of, and subsequently design and administer, an Output-Based Aid program providing funds to subsidize initial connection of households to a SIDA-funded sanitary sewage project in the Colombo Metropolitan Area.
31 Dar es Salaam Desalination	300 000	Tanzania	EAIF	2013	Cancelled	1b - Funding of Pre-Feasibility Study	To partially offset costs associated with an unusually expensive evaluation of the overall commercial possibility of designing, constructing, and operating a seawater desalination facility on a PPP concession basis for the city of Dar es Salaam.
32 Dar es Salaam Non-Revenue Water (NRW)		Tanzania	EAIF	2014	Declined	1b - Funding of Pre-Feasibility Study	To partially offset costs associated with a group of technical studies and pilot projects needed for the design and implementation of a non-revenue water (NRW) reduction project to be done in collaboration with the Dar es Salaam water utility on a PPP basis.
33 Don Maung Tollway	100 000	Thailand	GuarantCo	2010	Cancelled	1e - Capital Market Development	To assist with capital market strengthening and capacity building in conjunction with a private sector initiative to issue long-term infrastructure bonds in Thailand.
34 Eleme Petrochemicals Ltd.	74 500	Nigeria	EAIF	2006	Completed	1a - Capacity Building Support	To support preparation of a Community Development Plan being developed in conjunction with the privatization the Eleme Petrochemicals Ltd. Project in Nigeria.
35 Energy Sector Capacity Building (Mike Dyson Contract)	55 000	Ghana	Post Trans	2008	Completed	1d - Post-Transaction Support	Post transaction support to the Government of Ghana to provide support in developing and building up an effective regulatory authority to manage and regulate IPP projects
36 Energy Sector Capacity Building Project	290 000	Ghana	Post Trans	2009	Completed	1d - Post-Transaction Support	Grant to Ghana's transmission utility, GRIDCo, to help them procure the services of a consultant to work with GRIDCo's professional staff to develop a robust and comprehensive financial modelling tool for ascertaining the full cost incurred in the provision of core transmission and wheeling services as well as the ancillary services GRIDCo is obliged to provide under the Energy Commission Act.
37 Envalor Ltd	430 000	Mozambique	InfraCo Africa	2010	Ongoing	1b - Funding of Pre-Feasibility Study	To assist with (i) environmental and social impact assessments, as well as, (ii) capacity building in conjunction with the development of a bulk water irrigation system for the production of sugar and ethanol for the local and export markets.
38 Ethiopia Geothermal VGF Preparation	70 000	Ethiopia	InfraCo Africa	2015	Ongoing	1b - Funding of Pre-Feasibility Study	To partially cover the costs of (i) an early stage appraisal of the VGF subsidy requirements of a geothermal project in Ethiopia, and (ii) an independent review of the project financial model prepared by InfraCo Africa to justify the size of the requested VGF grant.
39 Ethiopia Water Development Add-on	165 000	Ethiopia	InfraCo Africa	2015	Ongoing	1c - Developmental Additions	To partially cover the costs of a study to assess the feasibility and cost of modifying the planned water infrastructure/supply of a geothermal power project such that clean water for consumption and irrigation can also be provided to the communities and pastoralists that are local to the project site.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
40 Facilitating Capital Market Development	35 999	Kenya	GuarantCo	2007	Completed	1e - Capital Market Development	Provide advice and training to the Kenyan Government with respect to capital markets: (i) Policy advice / recommendations regarding local capital market strategies for the Finance Minister's annual budget speech; (ii) Recommendations regarding new regulations for the fixed income market, capacity building for market players, and support to a pilot infrastructure bond transaction and assistance to infrastructure parastatals with raising financing through local capital markets; and (iii) Convening and leading a workshop on the potential that regional capital market integration creates for financing infrastructure.
41 FSA Capacity Building and Collaboration	235 000	Niger	GuarantCo	2010	Completed	1d - Post-Transaction Support	Fund capacity building and support to Fonds de Solidarite Africain (FSA), a Niger based specialised development finance institution, owned by and active in, 13 sub-Saharan African countries. The proposed technical assistance will comprise an initial Phase 1 Needs Assessment and, subject to acceptance of the training program proposed, delivery of a tailored Phase 2 Training Seminar.
42 Gambia IPP - Affordability Study	74 900	Gambia	EAIF	2009	Completed	1b - Funding of Pre-Feasibility Study	Partially finance a preliminary examination of the current financial condition of The Gambian utility agency, NAWEC, and identify the ability and willingness to pay of the consumers for whom services would be extended if a privately developed power generation facility is developed.
43 Gambia IPP - Transmission and Distribution	489 999	Gambia	EAIF	2009	Completed	1a - Capacity Building Support	To partially finance: (i) An Environmental and Social Impact Assessment and Resettlement Action Plan and identify activities needed to assure the project will meet World Bank and IFC Environmental and Social Performance Standards; (ii) An assessment of the Government utility agency NAWEC as well as PURA, the regulatory agency, to define capacity strengthening needs within the agency(ies) and to inform decisions on ultimate management of the transmission and distribution line(s); and (iii) Legal and other advisers needed to support government agencies in developing, negotiating and managing contracts and agreements for development and implementation of the PPP project.
44 Geometric Power Aba Ltd.	950 000	Nigeria	InfraCo Africa	2005	Completed	1a - Capacity Building Support	TAF funding will be used for: - A market study of power supply, distribution and consumption in Aba; - Contractual Agreement Preparation by International Counsel; - Contractual Preparation by Local Counsel; - Technical study; - Environmental impact studies; - Fuel Study.
45 Ghana LPG Services	10 000	Ghana	GuarantCo	2014	Cancelled	1a - Capacity Building Support	Partially cover the legal costs - the drafting of the guarantee and recourse agreements, and the provision of independent legal counsel for GuarantCo -associated with a guarantee provided by GuarantCo to Quantum Terminal.
46 Ghana Toll Road Project	310 000	Ghana	GuarantCo	2010	Cancelled	1a - Capacity Building Support	Partially finance a review of social and environmental impacts, including road safety issues, resulting from additional lanes being added to parts of the road, and the restricted access inherent in a toll facility
47 Ghana Wind Project	500 000	Ghana	InfraCo Africa	2011	Ongoing	1b - Funding of Pre-Feasibility Study	Partially offset costs associated with activities that reflect gaps in the government's policies, plans, and regulations needed to roll out its ambitious renewable energy development program, and special requirements associated with international standards for environmental and social impact assessments. These activities, which are above and beyond the costs that would typically be incurred during the normal course of project development, include: (i) a Land Titling Assessment; (ii) key elements of an environmental and social impact assessment needed to meet international requirements; and (iii) a Grid Interconnection Study
48 Goldtree Palm Oil Project	74 600	Sierra Leone	EAIF	2009	Completed	1c - Developmental Additions	Partially finance: (i) an environmental study to address gaps identified by FMO in a previous ESIA carried out on behalf of the project sponsors; and, (ii) identification of possible "development activities" that could be included in the project to address critical social issues in the area.
49 Home Finance Guarantors Africa (Reinsurance) Ltd	390 000	Kenya, Ghana, Rwanda, and Uganda	GuarantCo	2011	Completed	1a - Capacity Building Support	Facilitate the development of an affordable home loan industry for lower-income borrowers initially in the above mentioned five low-income countries in sub-Saharan Africa. It will cover capacity building, training, and borrower education programs targeted at three levels of participants or beneficiaries, namely: Insurers and Lenders, Borrowers and Training of Trainers from 4 countries over 3 years, covering approx. 5,700 trainees.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
50 India Fly Ash Reuse Strategy	300 000	India	InfraCo Asia	2011	Cancelled	1b - Funding of Pre-Feasibility Study	Assist with (i) a survey of the fly ash subsector in a selection of India's lagging states, covering the size and nature of the subsector, legal-regulatory issues, obstacles to wider commercial exploitation of the subsector, etc., (ii) case studies of the highest priority pilot projects with the strong potential to reuse fly ash for commercial purposes and reduce negative environmental consequences of current disposal methods, and (iii) recommendations regarding a government strategy for facilitating the commercial use of fly ash and increasing public awareness of the commercial and environmental implications of such a policy.
51 Infrastructure for Renewable Energy Fuels	65 000	Multiple Countries (SSA)	InfraCo Africa	2008	Completed	1b - Funding of Pre-Feasibility Study	Partially finance an initial assessment of viability of two renewable fuel projects – sugar cane to ethanol - in areas that have hitherto had no tradition of bio-fuel development.
52 Integrated Regional Solid Waste Management PPP	74 000	India	DevCo	2008	Cancelled	1d - Post-Transaction Support	Partially finance the development of a capacity building program for regulatory and overseeing authorities, and officials of Andhra Pradesh Urban Finance & Infrastructure Development Corporation (APUFIDC).
53 IPTL Tanzania Power	15 000	Tanzania	GuarantCo	2004	Completed	1b - Funding of Pre-Feasibility Study	The scope of works consists of : - Review Tanzania's Generation Plan; Impact of rainfall forecasts on the generation dispatch patterns; Generation plant variable costs; Determine schedule of dispatch (based on different scenarios in the simulation model)
54 Kafue Gorge Lower Hydroelectric	250 000	Zambia	DevCo	2009	Completed	1a - Capacity Building Support	Provide capacity building to Government agencies with respect to best practices and experience in PPPs, structuring and risk allocation approaches, as well as financial and other analytical analysis.
55 Kakira Rural Development (I)	74 375	Uganda	EAIF	2004	Completed	1a - Capacity Building Support	A scoping study for the Kakira Outgrower Infrastructure Project. The study will (i) assesses the feasibility of the proposed project, (ii) develop an outline business plan / project memorandum, including a detailed implementation plan, and (iii) seek in principle agreement from project partners.
56 Kakira Rural Development (II)	73 950	Uganda	EAIF	2004	Completed	1b - Funding of Pre-Feasibility Study	Building on the agreements already reached during phase I, phase II of the scoping study on the Kakira Rural Infrastructure Development Project will: (i) Support stakeholders to finalise which projects to include in the initial project portfolio. (ii) Develop detailed workplans for the agreed initial projects. (iii) Communicate the overall project to the broader outgrower community to ensure broad-based acceptance of the proposal. (iv) Initiate discussions with potential donors to fund the capital costs of initial projects. (v) Start creating the KDLKORD, registering the company, and beginning the process of including recruiting key staff and registering the company.
57 Kalangala Infrastructure Services	348 010	Uganda	InfraCo Africa	2006	Completed	1b - Funding of Pre-Feasibility Study	Help finance detailed studies and analysis needed to complete an Information Memorandum sufficiently robust to raise debt and equity financing for implementation of the previously developed "Project Development Plan".
58 Kalangala Infrastructure Services - OBA	5 000 000	Uganda	InfraCo Africa	2008	Completed	3 - Viability Gap Funding	Partially offset the capital costs of purchasing equipment and constructing the infrastructure necessary to provide the services, thus facilitating affordability of the tariffs charged to low-income users.
59 Kalangala Infrastructure Services - Resettlement Action Plan	681 000	Uganda	InfraCo Africa	2009	Ongoing	1c - Developmental Additions	Assist with design, implementation and monitoring of a Resettlement Action Plan (RAP) resulting from the Environmental and Social Impact Assessment carried out in conjunction with development of the Kalangala Infrastructure Services Project.
60 Kampala Cement Availability	40 000	Uganda	GuarantCo	2014	Completed	1b - Funding of Pre-Feasibility Study	To partially cover the costs of a marketing study and an ESIA for a cement plant project in Kampala Uganda. These activities are unusually expensive in the sense that they must be done to international, rather than local, standards.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description	
61	Kampala Sanitation	615 000	Uganda	InfraCo Africa	2006	Cancelled	1b - Funding of Pre-Feasibility Study	To help finance activities associated with development and implementation of a Project Development Plan to support the Government's efforts to prepare and evaluate alternative scenarios to encourage and facilitate private investment in the construction, operation and maintenance of the needed facilities.
62	Kampala Solid Waste Management - VGF Support	25 000	Uganda	DevCo	2013	Completed	1a - Capacity Building Support	Partially cover the costs of an early stage appraisal of the subsidy requirements of a solid waste management (SWM) project in Uganda. The early stage appraisal, in the form of a concept note, is required for TAF's assessment of a VGF application.
63	Kampala Solid Waste Management VGF	3 000 000	Uganda	DevCo	2013	Cancelled	3 - Viability Gap Funding	To close the gap between the expected revenues (determined by a tariff regime that uses cross-subsidization to allow free services for poor customers) and the revenues required to cover all capital costs, operating and maintenance (O&M) costs, and earn a reasonable return on investment.
64	Kenya Rwanda PPP Training	117 480	Kenya and Rwanda	DevCo	2012	Completed	1a - Capacity Building Support	To partially offset costs associated with three intensive one-week PPP training courses designed to generate DevCo projects and capacitate counterpart government staff to support these projects.
65	Kerala Port ESIA	40 000	India	DevCo	2012	Cancelled	1b - Funding of Pre-Feasibility Study	Partially cover the unexpected and unusually expensive costs of an environmental and social impact assessment (ESIA) needed for the Vizhinjam International Seaport (VIS) project to maintain its momentum toward financial closure.
66	Kigali Bulk Water Project	50 000	Rwanda	DevCo	2011	Completed	1b - Funding of Pre-Feasibility Study	Partially offset costs associated with an activity needed to fill gaps in the government's environmental monitoring program for water quality testing in the Nyaborongo River. These activities normally would be the responsibility of government and are therefore above and beyond the costs that would typically be incurred during the normal course of project development.
67	Kpone (Tema) IPP (I)	345 000	Ghana	InfraCo Africa	2005	Completed	1b - Funding of Pre-Feasibility Study	To investigate the strategic relevance and feasibility of, and develop preliminary documentation and agreements associated with, the development of a new independent power project (IPP) in Ghana.
68	Kpone (Tema) IPP (II)	460 000	Ghana	InfraCo Africa	2007	Completed	1b - Funding of Pre-Feasibility Study	To finalize studies and documentation: (i) a detailed assessment of the future evolution of power supply/demand balance in Ghana given recent changes in the supply of emergency power generation and the limited capability of VRA to address the market through its hydro resources from Akosombo; (ii) preparation and maintenance of a Financial Model acceptable to lenders; (iii) the development of a bankable security package based on sector cash flow or other acceptable structure; (iv) preparation of tender documents and management of the procurement process for the engineering/procurement/construction (EPC), and operation/maintenance (O&M) contracts; and (v) development of gas supply and gas transport agreements.
69	KRC/URC SME Linkages Programme	1 000 000	Multiple Countries (SSA)	DevCo	2005	Cancelled	1a - Capacity Building Support	The funds would support the activities over the next two years of the Governments of Kenya and Uganda and the newly-concessioned private railway operator in their efforts to facilitate the creation and strengthening of privately operated small and medium enterprises (SMEs) which would provide services, parts and equipment to the newly privatized joint railway, as well as position them to market their goods and services outside the railway sector.
70	Lake Kivu	500 000	Rwanda	EaIF	2006	Ongoing	1b - Funding of Pre-Feasibility Study	Help finance the establishment and operation of a Monitoring Group to oversee, coordinate, and evaluate monitoring of gas extraction activities associated with construction of methane-fired power plants in Lake Kivu on the border of Rwanda and Democratic Republic of Congo. The Grant would also finance training of local technicians in these activities.
71	Lake Victoria Marine Transport	360 000	Multiple (SSA)	InfraCo Africa	2016	Grant Letter	1a - Capacity Building Support	Partially offset costs associated with three studies needed to generate information for the implementation of InfraCo's Lake Victoria Marine Transport Services project. A secondary objective is to use these activities to build the understanding and capacity of senior government officials involved in the project.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
72 Lake Volta Transport Corridor PPP	390 000	Ghana	InfraCo Africa	2011	Cancelled	1a - Capacity Building Support	To partially offset costs associated with activities that the government needs to undertake prior to entering into a public-private partnership to exploit the potential of Lake Volta as a year-round transportation corridor. These activities include: (i) an assessment of the operating procedures of the government's Volta Lake Transport Company (VLTC), (ii) support for implementing the recommendations of that assessment, (iii) a VLTC staffing needs assessment, and (iv) staff training. This advice and capacity building must be initiated before InfraCo completes its normal project preparation due diligence studies
73 Lao Roads Capacity Building	130 000	Laos	DevCo	2014	Ongoing	1a - Capacity Building Support	Partially offset costs associated with three related intensive training modules designed to build the capacity of Lao officials and regulators to better understand how PPPs can be implemented in a financially, socially, and environmentally sustainable manner.
74 Laos and Myanmar Waste to Energy VGF Support	25 000	Laos and Myanmar	GuarantCo	2013	Completed	1a - Capacity Building Support	To partially cover the costs of an early stage appraisal of the subsidy requirements of waste-to-energy projects in Laos and Myanmar. The appraisal is required for TAF's assessment of a VGF application.
75 Liberia Mgmt Contract Amendment	70 000	Liberia	DevCo	2012	Completed	1d - Post-Transaction Support	To partially offset costs of legal services needed to amend a management contract entered into by the Liberia Electricity Corporation (LEC) with a private contractor.
76 Liberia Power Sector Advisory	36 000	Liberia	DevCo	2007	Completed	1a - Capacity Building Support	To support capacity building and institutional strengthening of the Government of Liberia (GoL) team working with IFC on the DevCo Advisory funded project for the concession of Monrovia's electricity grid.
77 Lilayi Housing Project	6 000	Zambia	GuarantCo	2006	Completed	1b - Funding of Pre-Feasibility Study	Fund the drafting of the ToRs for the following consultancy assignment: (i) overall assessment of the social and economic benefits of the Lilayi Housing Development, including poverty impact, replicability and demonstration effects, as well as the longer term impact on land, housing and financial markets in the country; (ii) definition of the potential role for (a) bilateral donor(s) and identification of technical assistance needs (especially regarding subdivision of land and title registration); and (iii) initial due diligence on the Lilayi Infrastructure Development Company.
78 Low-Cost Housing Project, Assam	74 900	India	GuarantCo	2008	Completed	1c - Developmental Additions	Developmental "add-on" aimed at the manufacture and sale of low cost pre-cast housing materials, involving women construction workers and sale of finished products to the poorer sections of NE society, to meet their housing needs.
79 Madagascar Seaport & Airports Privatization	74 500	Madagascar	DevCo	2004	Completed	1a - Capacity Building Support	Fund the hiring of two individuals based in Madagascar to provide institutional strengthening to the Madagascar Government team working with IFC.
80 MagEnergy Inc.	22 836	Congo, DR	EAIF	2007	Completed	1b - Funding of Pre-Feasibility Study	To partially finance a review of compliance with applicable local, international, and multi-lateral/bi-lateral environmental and social standards associated with the rehabilitation of a hydro-electric facility in DRC.
81 Mali Albatros IPP	500 000	Mali	EAIF	2016	Grant Letter	1a - Capacity Building Support	Partially cover the costs associated with a number of project preparation activities needed to establish the bankability of a 90MW thermal power IPP in Mali: (i) an environmental and social impact assessment performed to international standards; (ii) a thorough financial model review; (iii) translation of legal documentation and due-diligence reports (French into English, to expand the group of potential lenders); and (iv) specific aspects of legal and technical preparation, which the government has not been able to carry out.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
82 Moatize Capacity Building Programme	1 025 000	Mozambique	DevCo	2005	Cancelled	1a - Capacity Building Support	Fund technical assistance and capacity building over the next two years to support the activities of the Government of Mozambique to engage responsibly with the new concessionaire in negotiations and finalization of this complex transaction, implementation of the various aspects of the concession, and developing capacity to carry out monitoring and regulatory duties in conjunction with this concession as well as anticipated future projects
83 Mozambique Hydropower Capacity Building	325 000	Mozambique	InfraCo Africa	2016	Grant Letter	1a - Capacity Building Support	To partially offset costs associated with the creation and management of a hydrology data measurement pilot programme, which is needed to build the government's capacity to collect and measure hydrological data necessary for the assessment of the bankability of small hydro projects in the northern part of the country.
84 Mozambique Solar VGF Preparation	70 000	Mozambique	EAIF	2015	Ongoing	1a - Capacity Building Support	To partially cover the costs of (i) an early stage appraisal of the VGF subsidy requirements of a solar PV project in Mozambique – the early stage appraisal is required for TAF's assessment of a VGF application and will take the form of a VGF Concept Note required for all VGF proposals, and (ii) an independent review of the project financial model prepared by EAIF to justify the size of the requested VGF grant.
85 Muchinga Hydro Power	450 000	Zambia	InfraCo Africa	2010	Completed	1a - Capacity Building Support	Assist with environmental and social impact assessments as well as capacity strengthening in conjunction with the development of a series of private-sector owned run-of-river hydro power generation facilities in north-central Zambia.
86 Myanmar Infrastructure Strategy	340 000	Myanmar (Burma)	InfraCo Asia	2012	Completed	1a - Capacity Building Support	Partially cover the costs of three activities to be carried out in Myanmar: (i) a sector scoping study to identify and assess opportunities for private sector investment in various infrastructure sectors; (ii) a country PSP readiness evaluation to determine the government's readiness to engage in private sector investments, public-private partnerships and privatization in the infrastructure sectors identified in #1 above; and (iii) a gap analysis (based on activities #1 and #2) to determine specific areas where InfraCo Asia can achieve investment project successes in the country.
87 Myanmar Wind Power	510 000	Myanmar	InfraCo Asia	2015	Ongoing	1a - Capacity Building Support	To partially cover the costs of several activities designed to develop a bankable wind power project in Myanmar: (i) Developing a 10 to 30 MW wind power project; (ii) Building local government capacity relating to power generation regulation; and (iii) Building capacity of focal ministries to develop a deeper understanding of the available wind resources within the country.
88 Myanmar, Cambodia & Laos Biogas Waste-to-Energy VGF	4 100 000	Laos, Cambodia & Myanmar	GuarantCo	2013	Cancelled	3 - Viability Gap Funding	VGF grant of US\$4.1 million (15% of capital costs) will be needed to close the gap between the expected revenues and the revenues required to cover all capital costs, operating and maintenance (O&M) costs, and earn a reasonable return on investment.
89 Nairobi Commuter Rail (I)	203 000	Kenya	InfraCo Africa	2009	Ongoing	1a - Capacity Building Support	To assist with capacity building and sponsoring stakeholder involvement in conjunction with the development of a public/private initiative to rehabilitate, expand, operate, and maintain the existing Government-owned Nairobi Commuter Rail System.
90 Nairobi Commuter Rail (II)	350 000	Kenya	InfraCo Africa	2011	Ongoing	1b - Funding of Pre-Feasibility Study	To partially offset costs associated with (i) the preparation of elements of an environmental-social impact analysis that are unusually expensive because of the need to meet World Bank Group standards for such studies rather than Kenyan national standards; (ii) the gathering and analysis of specific socio-economic data pertaining to potentially vulnerable groups and potential users within the service area; and (iii) the provision of advice and capacity building to the NCR Interchange Working Group, a group comprising representatives from the main mass transit modes in Nairobi, which will meet regularly to discuss the interface between the project and other modes of transport.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
91 Nairobi Commuter Rail (III)	300 000	Kenya	InfraCo Africa	2013	Cancelled	1a - Capacity Building Support	To partially offset costs associated with several areas of specific support that would help Kenya Railways (KR) and the Government of Kenya (GoK) better understand key contractual structuring and financing elements that will be factors in the Nairobi Commuter Rail Project. In particular, this work will help the government understand the reasons for certain key provisions of the project Implementation Agreement and how they are necessary to the transaction, are commercially reasonable, and are standard in PPP transactions of this type.
92 Nepal Hydroelectric Projects	74 500	Nepal	InfraCo Asia	2008	Completed	1b - Funding of Pre-Feasibility Study	Partially finance an examination of structuring several small hydro projects into a single investment package, and the affordability issues (ability and willingness to pay of the consumers for whom services would be extended) involved in providing greater access to electricity to the low-income population. The study would also identify any subsidies that may be required as well as potential sources.
93 Nepal Hydropower Sector Support	390 000	Nepal	InfraCo Asia	2012	Completed	1b - Funding of Pre-Feasibility Study	To partially finance (i) unusually expensive technical pre-feasibility assessments to identify a pioneering hydropower project and (ii) related capacity building for government officials and local private sector counterparts.
94 Nepal Power Sector Capacity Building	113 000	Nepal	GuarantCo	2015	Ongoing	1a - Capacity Building Support	To partially finance (i) an introductory project finance seminar for local financial institutions (and the financial sector regulator), as well as (ii) a skills development program for local laborers living in areas adjacent to on-going power projects.
95 Nias Island Integrated Infrastructure - Feasibility Study	74 900	Indonesia	InfraCo Asia	2008	Completed	1b - Funding of Pre-Feasibility Study	To partially finance implementation of a prefeasibility study of a proposed integrated infrastructure services project on Nias Island, Indonesia. Of particular importance will be a review of financial viability and any subsidies that may be required, as well as early identification of potential environmental issues that may result from the possible development of a rubber plantation that would be facilitated by this integrated infrastructure project.
96 Nigeria Credit Enhancement Facility	178 000	Nigeria	GuarantCo	2014	Completed	1b - Funding of Pre-Feasibility Study	To partially cover the costs of preparing a pre-feasibility assessment of a Nigerian debt guarantee facility. If the results of this assessment are positive, and confirmed by a full feasibility study and business plan, the Nigerian Sovereign Investment Authority (NSIA) will consider establishing such a facility in partnership with GuarantCo.
97 Nigeria Credit Enhancement Facility (NCEF), Part 2	900 000	Nigeria	GuarantCo	2015	Grant Letter	1e - Capital Market Development	To cover approximately half of the costs of setting up a Nigeria Credit Enhancement Facility (NCEF) in partnership with the Nigeria Sovereign Investment Authority (NSIA). TAF will pay for technical assistance costs that will involve lawyers (Nigerian and international), rating agencies, and a variety of other expert consultants (HR, regulatory experts, governance specialists, etc.).
98 Nigeria Fertiliser I	48 175	Nigeria	InfraCo Africa	2004	Completed	1b - Funding of Pre-Feasibility Study	A pre-feasibility study to identify and evaluate options for improving the logistics infrastructure to supply fertilizer and other agricultural inputs to farmers in Nigeria and to strengthen post-harvest storage and distribution infrastructure.
99 Nigeria Pension Regulator Training	115 000	Nigeria	GuarantCo	2014	Completed	1e - Capital Market Development	To partially cover the costs of a training program for the staff of the National Pension Commission of Nigeria. Specifically, the program will cover (i) investment management (analysis of bonds, risk management, foreign investments and performance measurement) and (ii) customer education and relations.
100 Nigeria SEC Capacity Building	186 740	Nigeria	GuarantCo	2012	Completed	1e - Capital Market Development	To cover slightly over half of the costs of a training programme for the Nigerian Securities and Exchange Commission designed to accelerate development of the debt capital market (DCM) in Nigeria.

Grant Title		TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
101	Nigeria Solar IPP	1 000 000	Nigeria	GuarantCo	2016	Grant Letter	1b - Funding of Pre-Feasibility Study	To cover about 20% of the costs of developing the first large grid-based solar PV project in Nigeria. The specific outputs that TAF would pay for include: (i) Interconnection legal agreement creation and negotiation, (ii) Transmission Line and Substation Extension Agreement creation and negotiation; (iii) Derogation analysis study and design, (iv) Environmental & Social Impact Assessment comprehensive report completion to international standards; (v) Environmental & Social Management Plan development and implementation; (vi) Legal template creation of the power purchase agreement (PPA) and the "put-call option agreement" (PCOA).
102	Odisha Urban Development	275 000	India	DevCo	2013	Completed	1a - Capacity Building Support	To partially offset costs associated with three technical assistance activities (two capacity building activities and one involving the development of a communications strategy).
103	Pakistan Bond Issue Legal Costs	70 000	Pakistan	GuarantCo	2013	Completed	1e - Capital Market Development	To partially cover the legal costs incurred by a private telecom company in resolving legal and regulatory issues associated with a GuarantCo local currency guarantee. The guarantee will support a Sukuk (Islamic) bond issue to be sold in Pakistan's capital market, the first time that such a bond issue has been backed by a third-party off-shore guarantee.
104	Pakistan Telecom Development Add-on	297 687	Pakistan	GuarantCo	2014	Ongoing	1c - Developmental Additions	To partially finance continuation by a Pakistani mobile operator (Mobilink) of a successful but underfunded mobile phone-based literacy program that will directly benefit 2,500 women living in Pakistan's impoverished rural areas.
105	Palestine Capital Markets Development	125 000	Palestine	GuarantCo	2012	Cancelled	1e - Capital Market Development	Partially offset costs associated with the development by the Palestinian Capital Markets Authority (PCMA) of capital market regulations for private pension funds. This work will include (i) a comparative legal review of relevant financial sector laws and regulations to identify existing regulatory gaps and applicable international best practice; (ii) assistance to the PCMA in drafting private pension regulations and implementation decrees; and (iii) a functional review and needs assessment of PCMA followed by capacity building assistance.
106	Palestinian Private Sector Pension Fund Pilot		Gaza & West Bank	GuarantCo	2009	Declined	1e - Capital Market Development	The following activities are included: (i) market studies to set out the need for the company; (ii) technical studies on the spheres of operations; (iii) a financial feasibility study; and, (iv) identification of the role of the fund in reviving the Palestinian capital markets (the absence of a local capital market limits finance for long term infrastructure that could be guaranteed in part by GuarantCo at a future date).
107	Philippines PPP Training	69 900	Philippines	DevCo	2012	Completed	1a - Capacity Building Support	To partially offset costs associated with a PPP training programme for 30 participants from the Philippines and 10 participants from other Asian countries. All participants will be associated with IFC-DevCo clients in the East Asia and Pacific region.
108	Rajasthan Agribusiness	420 000	India	InfraCo Asia	2014	Ongoing	1b - Funding of Pre-Feasibility Study	To partially offset costs associated with technical assistance and capacity building activities needed to develop a pioneering integrated, post-harvest agribusiness infrastructure project in India in the state of Rajasthan.
109	Rift Valley Railways Strategy Business Plan	74 900	Kenya	Post Trans	2009	Completed	1d - Post-Transaction Support	To partially finance the development of a strategic turn-around plan for the Rift Valley Railway concession operating the joint Kenya and Uganda Railways. This project would be "post-transaction support" following a previous DevCo project supporting the concession of the Kenyan and Ugandan state railways to a private operator.
110	Ruhudji Hydropower	275 000	Tanzania	EaIF	2008	Completed	1b - Funding of Pre-Feasibility Study	Partially finance preliminary investigations into the social and environmental aspects of meeting the requirements of the World Commission on Dams as highlighted in their most recent report, as well as supplement existing government data regarding the Ruhudji River Basin management and transmission and distribution grid constraints and issues.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
111 Rwanda Bulk Water PPP - VGF Preparation	40 000	Rwanda	EaIF	2015	Ongoing	1a - Capacity Building Support	Partially cover the costs of an early stage appraisal of the subsidy requirements of a bulk water supply PPP project in Rwanda. The early stage appraisal is required for TAF's assessment of a VGF application.
112 Rwanda Bulk Water PPP - VGF Preparation Part 2	30 000	Rwanda	EaIF	2015	Ongoing	1a - Capacity Building Support	Partially cover the costs of Part 2 of an early stage appraisal of the subsidy requirements of a bulk water supply PPP project in Rwanda. Part 2 involves an audit of the project financial model prepared by EaIF to justify the size of the requested VGF grant.
113 Rwanda Bulk Water VGF	6 500 000	Rwanda	EaIF	2016	Grant Letter	3 - Viability Gap Funding	Close the gap between the expected revenues (determined by a government tariff regime that includes special tariffs for poor customers) and the revenues required to cover all capital costs, operating and maintenance (O&M) costs, and earn a reasonable return on investment. EaIF confirms that without the VGF capital subsidy, the project is not bankable and will not go forward.
114 Rwanda Rental Housing BM Study	90 000	Rwanda	GuarantCo	2016	Ongoing	1e - Capital Market Development	To partially cover the costs of preparing a business model development study for the rental housing subsector in Rwanda. GuarantCo will implement this activity in partnership with Shelter Afrique.
115 Sandandrano Water	73 500	Madagascar	InfraCo Africa	2007	Completed	1b - Funding of Pre-Feasibility Study	Support preparation of pre-feasibility studies being undertaken to investigate the feasibility of provision of water services by the private sector to 11 communities in the Antananarivo suburban area.
116 Seaquest Infotel Niger ICT Preliminary Investigation Project (I)	395 000	Niger	GuarantCo	2008	Ongoing	1b - Funding of Pre-Feasibility Study	Partially finance the development of a local fibre optics and innovative open access ICT backbone network in Niger and Mali, connecting local carriers to each other, to the SAT 3 cable of the west coast of Africa, and to population centres in neighbouring countries with which Niger and Mali has significant trade, but limited telecommunications connections.
117 Seaquest Infotel Niger ICT Preliminary Investigation Project (II)	74 500	Niger	GuarantCo	2009	Completed	1b - Funding of Pre-Feasibility Study	Partially finance the development of a local fibre optics and innovative open access ICT backbone network in Niger and Mali, connecting local carriers to each other, to the SAT 3 cable of the west coast of Africa, and to population centres in neighbouring countries with which Niger and Mali has significant trade, but limited telecommunications connections.
118 Senegal Wind Farm Development (I)	260 000	Senegal	InfraCo Africa	2010	Ongoing	1a - Capacity Building Support	To assist with capacity strengthening as well as social and environmental assessments in conjunction with the development of an alternative energy project: Senegal Wind Farm Development.
119 Senegal Wind Farm Development (II)	130 000	Senegal	InfraCo Africa	2013	Cancelled	1a - Capacity Building Support	To partially fund the costs of two capacity building activities in support of InfraCo's Leona Wind Farm project: (i) assistance to the government in conducting a study of the national electricity grid and its potential for integrating different forms of renewable energy, including wind and solar power; and (ii) a study trip to Cape Verde to allow government and power utility technical staff to learn from InfraCo's successful Cabeolica Wind Farm project.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
120 Sierra Leone Biofuels	55 000	Sierra Leone	GuarantCo	2013	Cancelled	1a - Capacity Building Support	Partially finance: (i) a technical evaluation of the factors contributing to the problems faced by Addax, a biofuels project in Sierra Leone, followed by (ii) an evaluation of whether the same risks will be faced by Bagamoyo, a similar project in Tanzania, and if so, (iii) an assessment of how such risks can be adequately mitigated in the Tanzania case.
121 Sierra Leone CECA IPP	480 000	Sierra Leone	EaIF	2016	Ongoing	1a - Capacity Building Support	Partially cover the costs associated with (i) structuring and negotiating a power sector revenue Collection Account to support the Sierra Leone CECA independent power producer (IPP) project; and (ii) finalization of project legal documents, including the power purchase agreement (PPA), partial risk guarantee (PRG) agreement, and direct agreements with lenders. These are all normally costs incurred by the government. But in this case, the Government of Sierra Leone has exhausted its resources for this project.
122 Sierra Leone Hydropower	250 000	Sierra Leone	EaIF	2012	Ongoing	1a - Capacity Building Support	Partially cover the costs associated with the first phase of hiring a project manager to assist the government of Sierra Leone on the Bumbuna II project.
123 Sri Lanka Capital Market Development	41 000	Sri Lanka	GuarantCo	2013	Completed	1e - Capital Market Development	To partially cover the costs associated with a pioneering capital market debt transaction in Sri Lanka, involving a local currency guarantee by a foreign entity (GuarantCo). The costs involve market-making activities, and include higher rating agency costs, higher legal costs, and investor education costs
124 Sunyani Housing	466 000	Ghana	InfraCo Africa	2006	Cancelled	1b - Funding of Pre-Feasibility Study	To support feasibility and financial studies for the construction of affordable family housing and related infrastructure for workers and their families seeking employment in new mining operations being developed in the area.
125 Tabora Water PPP	70 000	Tanzania	DevCo	2007	Cancelled		Capacity building for the staff of Tabora Urban Water and Sewerage Authority (TUWASA)
126 Tanzanian Wind Power	65 000	Tanzania	InfraCo Africa	2008	Completed	1b - Funding of Pre-Feasibility Study	To partially finance an initial assessment of the energy sector in Tanzania and Uganda, further investigate the feasibility of a transmission interconnection project, and critically review potential future power projects and governments master plans.
127 Tanzania-Uganda Transmission Interconnection	55 000	Tanzania	InfraCo Africa	2008	Completed	1a - Capacity Building Support	This Grant would partially finance a Transmission Connection Impact Analysis; a Transportation Logistics Study; and a Legal opinion regarding InfraCo participation.
128 Toamasina Port – Interim Management Assistance	315 790	Madagascar	DevCo	2004	Completed	1a - Capacity Building Support	PIDG funding is sought to improve the effectiveness of DevCo Advisory funding for the Port of Toamasina by making immediate improvements to the sector, strengthening the capacity of the SEPT (which oversees the port’s management/operations) to deal with sector reform, and improving the chances of successfully completing the PPP transaction for the terminal container.
129 Uganda 50MW Biomass IPP	155 250	Uganda	EaIF	2006	Completed	1b - Funding of Pre-Feasibility Study	Used to carry-out pre-feasibility studies to advise government, private sector investors and lenders, and others on the feasibility of using biomass as an alternative fuel as part of Government’s policy to encourage private sector provision of electricity in Uganda.
130 Urban Development Bank Nigeria (UDBN)	308 000	Nigeria	GuarantCo	2009	Declined	1e - Capital Market Development	To assist with finalization of its business plan, particularly a review of potential legal and regulatory issues. Assistance has also been requested to help strengthen its ability to access local capital markets and other funding sources, and strengthen the capacity of its staff through training and dissemination of lessons learned with respect to specific issues associated with infrastructure development banks.

Grant Title	TAF Funding (US\$)	Country	Facility	Year	Status	Grant Type	Grant Description
131 Vietnam Hydropower VGF Support	25 000	Vietnam	InfraCo Asia	2013	Completed	1b - Funding of Pre-Feasibility Study	To partially cover the costs of an early stage appraisal of the subsidy requirements of a hydropower project in Vietnam, required for TAF's assessment of a VGF application. Specifically, this grant will fund preparation of the VGF Concept Note required for all VGF proposals.
132 West African Risk Mitigation Workshop	20 700	West Africa	GuarantCo	2014	Completed	1e - Capital Market Development	To cover one-third of the costs of a workshop designed to help public and private sector stakeholders better understand the benefits of using risk mitigation tools to enhance the creditworthiness of infrastructure projects. The ultimate goal of the workshop is to help facilitate much needed infrastructure investment in this region via local capital markets.
133 West Bank Solid Waste Management	75 000	Palestine	DevCo	2012	Completed	1a - Capacity Building Support	Partially offset costs associated with the design by IFC – DevCo of an output-based aid (OBA) funding mechanism needed to make a solid waste PPP project in the West Bank commercially viable. The OBA funding will be provided by the Global Partnership on Output-Based Aid (GPOBA). This TAF-funded work will include (i) the collection of baseline data against which to measure OBA pilot outputs, and (ii) focus group meetings to engage stakeholders, identify risks that could impact on implementation, and identify main elements of further technical assistance needed to implement the project.
134 Windiga Solar IPP Part 2	275 000	Burkina Faso	EaIF	2016	Ongoing	1a - Capacity Building Support	To partially offset costs associated with advisory work needed to get the Windiga Zina Solar IPP project to financial close. Activities will include legal work, auditing, and financial modeling. The overall project involves the design, construction, and operation of one of the first large grid-connected solar power IPPs in Africa.
135 Windiga Zina Solar IPP	359 500	Burkina Faso	EaIF	2014	Ongoing	1a - Capacity Building Support	To partially offset costs associated with advisory work needed to get the Windiga Zina Solar IPP project to financial close. The project involves the design, construction, and operation of one of the first large grid-connected solar power IPPs in Africa.
136 Zambia Chanyanya Resettlement Plan	417 673	Zambia	InfraCo Africa	2016	Grant Letter	1a - Capacity Building Support	To update and implement a Resettlement Action Plan (RAP) needed to facilitate an expansion of an irrigation infrastructure project developed by InfraCo in the Zambian village of Chanyanya.
137 Zambia Home Loans Capacity Building	330 000	Zambia	GuarantCo	2013	Completed	1a - Capacity Building Support	To facilitate development of an affordable home loan industry in Zambia. The mortgages would be targeted at what Zambia classifies as middle income and lower-middle income borrower groups. A TAF grant is recommended to offset part of the start-up costs associated with moving into this market, particularly with respect to capacity building and training for borrowers, and technical assistance in starting a local currency medium-term note (MTN) program to finance future mortgage lending activity from the local capital market.
138 Zimbabwe Housing Legal Advisory	60 000	Zimbabwe	GuarantCo	2016	Grant Letter	1e - Capital Market Development	To cover most of the legal costs associated with the sale of a mortgage-based bond issue (and related equity and debt arrangements) needed to capitalize a housing mortgage program aimed at low-income home purchasers in Zimbabwe.
