## **InfraCo Asia Investments Pte. Ltd.**

### **Directors' statement**

---

The directors are pleased to present their statement to the members together with the audited financial statements of InfraCo Asia Investments Pte. Ltd. (the "Company") for the financial year ended 31 December 2023.

#### **Opinion of the directors**

In the opinion of the directors:

- (i) the financial statements of the Company are drawn up so as to give a true and fair view of the financial position of the Company as at 31 December 2023 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date; and
- (ii) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

#### **Directors**

The directors of the Company in office at the date of this statement are:

Tinashe Tafadzwa Makoni  
Gilles Vaes  
Michael Barry Chilton  
Claudine Lim Hsi-Yun

#### **Arrangements to enable directors to acquire shares and debentures**

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the Company to acquire benefits by means of the acquisition of shares or debentures of the Company or any other body corporate.

#### **Directors' interests in shares and debentures**

None of the directors who held office at the end of the financial year, had, according to the register of directors' shareholdings required to be kept under Section 164 of the Singapore Companies Act 1967, an interest in shares and share options of the Company and related corporations, either at the beginning of the financial year, or at the end of the financial year.

**InfraCo Asia Investments Pte. Ltd.**

**Directors' statement**

---

**Share options**

There were no options granted by the Company during the financial year to subscribe for unissued shares of the Company.

No shares were issued during the financial year by virtue of the exercise of options to take up unissued shares of the Company.

There were no unissued shares of the Company under option at the end of the financial year.

**Auditor**

Ernst & Young LLP have expressed their willingness to accept reappointment as auditor.

On behalf of the board of directors:

Michael Barry Chilton  
Director

Tinashe Tafadzwa Makoni  
Director

**Independent auditor's report**

**For the financial year ended 31 December 2023**

**Independent auditor's report to the member of InfraCo Asia Investments Pte. Ltd.**

---

**Report on the audit of the financial statements**

**Opinion**

We have audited the financial statements of InfraCo Asia Investments Pte. Ltd. (the "Company"), which comprise the balance sheet of the Company as at 31 December 2023, the statement of changes in equity, the statement of comprehensive income and cash flow statement of the Company for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements of the Company are properly drawn up in accordance with the provisions of the Companies Act 1967 (the "Act") and Financial Reporting Standards in Singapore (FRSs) so as to give a true and fair view of the financial position of the Company as at 31 December 2023 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

**Basis for opinion**

We conducted our audit in accordance with Singapore Standards on Auditing (SSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority (ACRA) Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities (ACRA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Other information**

Management is responsible for the other information. The other information comprises the Directors' Statement set out on pages 1 to 2.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**InfraCo Asia Investments Pte. Ltd.**

**Independent auditor's report**

**For the financial year ended 31 December 2023**

**Independent auditor's report to the member of InfraCo Asia Investments Pte. Ltd.**

---

**Responsibilities of management and directors for the financial statements**

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Company's financial reporting process.

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

**InfraCo Asia Investments Pte. Ltd.**

**Independent auditor's report**

**For the financial year ended 31 December 2023**

**Independent auditor's report to the member of InfraCo Asia Investments Pte. Ltd.**

---

**Auditor's responsibilities for the audit of the financial statements (cont'd)**

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on other legal and regulatory requirements**

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023**

---

**1. Corporate information**

InfraCo Asia Investments Pte. Ltd. (the "Company") is a private limited company incorporated in Singapore.

The Company is 100% owned by the Private Infrastructure Development Group Trust (the PIDG Trust), a trust established under the laws of Mauritius. The Company's immediate and existing joint shareholders are SG Kleinwort Hambros Trust Company (UK) Limited, IQ EQ Trustees (Mauritius) Ltd and Minimax Ltd as trustees of the PIDG Trust.

The Company's ultimate controlling entity is the Private Infrastructure Development Group Trust (the PIDG Trust). The PIDG Trust does not prepare consolidated accounts. The PIDG Trust has delegated the authority to manage the Company to PIDG Limited, which is also a 100% owned subsidiary of the PIDG Trust.

The principal place of business and registered office is located at 8 Cross Street, #23-04/05, Manulife Tower, Singapore 048424 and 10 Collyer Quay, #10-01 Ocean Financial Centre, Singapore 049315 respectively.

The principal activities of the Company are to seek and undertake due diligence in respect of, appraise and, if thought fit, invest in and ultimately dispose of, interests in infrastructure projects which objectives are in line with the objectives set by the PIDG Trust.

**2. Material accounting policy information****2.1 *Basis of preparation***

The financial statements of the Company have been prepared in accordance with Singapore Financial Reporting Standards ("FRS").

The financial statements have been prepared on the historical cost basis except as disclosed in the accounting policies below.

The preparation of the financial statements in conformity with FRS requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgement in the process of applying accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.1.

The financial statements are presented in United States Dollars (US\$).

**2.2 *Changes in accounting policies***

The accounting policies adopted are consistent with those of the previous financial year except in the current financial year, the Company has adopted all the new and revised standards which are effective for annual periods beginning on or after 1 January 2023. The adoption of these standards and interpretations did not have any material effect on the financial performance or position of the Company.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023**

---

**2. Material accounting policy information (cont'd)****2.3 Standards issued but not yet effective**

The Company has not adopted the following standards applicable to the Company that have been issued but not yet effective:

<b>Description</b>	<b>Effective for annual periods beginning on or after</b>
Amendments to FRS 1: Classification of Liabilities as Current or Non-current	1 January 2024
Amendments to FRS 1: Non-current Liabilities with Covenants	1 January 2024
Amendment to FRS 116: Lease Liability in a Sale and Leaseback	1 January 2024
Amendments to FRS 21: Lack of Exchangeability	1 January 2025
Amendments to FRS 110 Consolidated Financial Statements and FRS 28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined

The directors expect that the adoption of the standards above will have no material impact on the financial statements in the year of initial application.

**2.4 Basis of consolidation**

The Company met the exception to consolidation criteria and is an investment entity, therefore, it measures its investments in subsidiaries at fair value through profit or loss in accordance with the policy set out in Note 2.7.

The Company has no consolidated subsidiaries.

Please refer to Note 3.1 for further information on the Company's assessment as an investment entity.

**2.5 Subsidiaries**

The Company is an investment entity and prepares the separate financial statements as its only financial statements. In the Company's separate financial statements, investments in subsidiaries are accounted for at fair value through profit or loss in accordance with the accounting policy set out in Note 2.7.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023**

---

**2. Material accounting policy information (cont'd)****2.6 Foreign currency**

The Company's financial statements are presented in United States Dollar, which is also the Company's functional currency.

*Transactions and balances*

Transactions in foreign currencies are measured in the functional currency of the Company and are recorded on initial recognition in the functional currency at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss.

**2.7 Financial instruments***(a) Financial assets*Initial recognition and measurement

Financial assets are recognised when, and only when the entity becomes party to the contractual provisions of the instruments.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement*(i) Investments in debt instruments*

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the contractual cash flow characteristics of the asset. The relevant category for the classification of debt instruments is:

*Amortised cost*

Financial assets that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the assets are derecognised or impaired, and through amortisation process.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023**

---

**2. Material accounting policy information (cont'd)****2.7 Financial instruments (cont'd)****(a) Financial assets (cont'd)****(ii) Investments in equity instruments**

Included within equity instruments are investments in subsidiaries:

Investment in subsidiaries (including amount due from subsidiaries)

In accordance with the exception under FRS 110 *Consolidated Financial Statements*, the Company does not consolidate subsidiaries in the financial statements unless the subsidiary is not itself an investment entity and its main purpose and activities are providing services that relate to the Company's investment activities. The Company has no consolidated subsidiaries. The Company measures unconsolidated subsidiaries together with the loan receivables from a subsidiary at fair value through profit or loss as they are managed and have their performance evaluated on a fair value basis, in accordance with risk management and investment strategies of the Company.

**De-recognition**

A financial asset is derecognised when the contractual right to receive cash flows from the asset has expired. On de-recognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

**(b) Financial liabilities****Initial recognition and measurement**

Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus in the case of non-derivative financial liabilities, directly attributable transaction costs.

**Subsequent measurement**

After initial recognition, non-derivative financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

**Derecognition**

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023**

---

**2. Material accounting policy information (cont'd)****2.8 *Impairment of financial assets***

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-month (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is recognised for credit losses expected over the remaining life of the exposure, irrespective of timing of the default (a lifetime ECL).

For loan receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

At every reporting date, the Company evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Company reassesses the internal credit rating of the debt instrument.

The Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

**2.9 *Cash and cash equivalents***

Cash and cash equivalents comprise cash at banks and on hand, including investments in money market funds which do not have a maturity date, and short-term deposits that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value.

**2.10 *Provisions***

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023**

---

**2. Material accounting policy information (cont'd)****2.11 Revenue**

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Company satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

Revenue of the Company is comprised of interest income from loans and bank deposits. These are recognised in profit or loss using the effective interest method.

**2.12 Taxes****(a) Current income tax**

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the end of the reporting period.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

**(b) Deferred tax**

Deferred tax is provided using the liability method on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all temporary differences, except where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023**

---

**2. Material accounting policy information (cont'd)****2.12 Taxes (cont'd)****(b) *Deferred tax* (cont'd)**

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of each reporting period.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity and deferred tax arising from a business combination is adjusted against goodwill on acquisition.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

**2.13 *Share capital***

Proceeds from issuance of ordinary shares are recognised as share capital in equity.

**3. Significant accounting judgements and estimates**

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of the revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023**

---

**3. Significant accounting judgements and estimates (cont'd)****3.1 Judgements made in applying accounting policies**

Management has made the following judgement in the process of applying the Company's accounting policies on the amounts recognised in the financial statements:

*Assessment as an investment entity*

Entities that meet the definition of an investment entity under FRS 110 are required to measure all of its subsidiaries at fair value through profit or loss rather than consolidate them. The criteria defining an entity as an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment management services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

The Company provides investment management services to its investors, where it obtains funding from its immediate shareholders for it to invest in subsidiaries for the purpose of returns in the form of investment income and capital appreciation.

The Company measures its investments in equity instruments on a fair value basis and has a clearly documented exit strategy for these investments.

Whilst the Company has two investors, the Foreign Commonwealth and Development Office and Directorate-General for International Cooperation, through its existing and immediate shareholders, the nature of the investors, being the UK Government and Government of Netherlands respectively, is such that they are in effect investing on behalf of the UK and Dutch taxpayers and therefore a link to multiple unrelated investors can be made.

The Board has concluded that the Company falls within the definition of an investment entity in accordance with FRS 110. The Company will reassess on a continuous basis for any circumstances that may lead to a change in fulfilling any of these criteria or characteristics.

**3.2 Key sources of estimation uncertainty***Provision for expected credit losses of loan receivables*

The Company uses a provision matrix to calculate ECLs for loan receivables. The provision rates are based on credit ratings for groupings of various counterparty segments that have similar loss patterns. The provision matrix is initially based on the Company's historically observed default rates. The Company will calibrate the matrix to adjust historical credit loss experience with forward-looking information. At every reporting date, historical default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Company's loans is disclosed in Note 7 and Note 17(a).

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023****4. Revenue**

	<b>2023</b>	<b>2022</b>
	US\$	US\$
Interest income from loans	4,414	477,273
Interest income from bank deposits and money market funds	3,006,335	861,390
	<u>3,010,749</u>	<u>1,338,663</u>

Interest income relates to interest income arising from loans, bank deposits, and money market funds.

**5. Loss before tax**

Loss before tax is arrived at after charging:

	<b>2023</b>	<b>2022</b>
	US\$	US\$
Professional fees	319,088	304,818
Directors' fees	—	4,710
Legal fees	18,583	30,925
Office rental	127,324	118,159
Salaries	2,125,730	1,872,962
Central Provident Fund Contributions	143,970	121,788
Travelling expenses	64,016	51,182

<i>Withholding tax</i>	546	2,741
Income tax expense/(credit)	<u>546</u>	<u>(3,824)</u>

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023****6. Income tax expense/(credit) (cont'd)*****Relationship between tax expense/(credit) and accounting loss***

A reconciliation between tax expense/(credit) and the product of accounting loss multiplied by the applicable corporate tax rate for the years ended 31 December 2023 and 2022 is as follows:

	<b>2023</b> US\$	<b>2022</b> US\$
Loss before tax	(1,428,023)	(6,469,978)
Tax at applicable tax rate of 17% (2022: 17%)	(242,764)	(1,099,896)
Over provision in respect of prior years	—	(6,565)
Non-deductible expenses	242,960	841,318
Income not subject to tax	(45,900)	—
Losses not available for carry forward	45,704	258,578
Withholding tax expense	546	2,741
Income tax expense/(credit) recognised in profit or loss	546	(3,824)

**7. Loan receivables**

	<b>2023</b> US\$	<b>2022</b> US\$
<b><i>Non-current</i></b>		
Term loan A	38,508	38,508
Term loan B	—	—
	38,508	38,508

***Term loan A***

On 2 July 2021, the Company became part of a consortium to provide loan facility to a third party. Pursuant to the agreement, the Company will provide up to INR 410,000,000 of loan facility to the third party.

On 8 March 2022, INR 2,940,000 (approximately US\$38,508) ("Term loan A") has been drawdown and disbursed to the third party and will mature on 30 August 2045.

Term loan A bears interest at 9.70% per annum (2022: 10.46% per annum) and is adjusted at every reset date, being 1 year from initial drawdown date and subsequently every 1 year thereafter.

***Term loan B***

In 2021, the third party encountered certain regulatory issues which led to the revocation of its license to operate. As a result, the Company has recorded an impairment loss on Term loan B amounting to US\$12,471,304. In 2023, the Company wrote back US\$270,000 and wrote off the remaining balance of US\$12,201,304.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023****7. Loan receivables (cont'd)**Expected credit losses

The movement in allowance for expected credit losses for loan receivables are as follows:

	<b>2023</b>	<b>2022</b>
	US\$	US\$
Movements in allowance accounts:		
Balance at beginning	12,471,304	12,471,304
Allowance written back	(270,000)	–
Written off against allowance	(12,201,304)	–
	<u>–</u>	<u>12,471,304</u>

**8. Interest receivables**

	<b>2023</b>	<b>2022</b>
	US\$	US\$
Interest receivables from:		
Term loan A	127	138
Bank deposits	79,950	142,394
	<u>80,077</u>	<u>142,532</u>

**9. Investments in subsidiaries**

	<b>2023</b>	<b>2022</b>
	US\$	US\$
Shares in subsidiaries	5	3
Amount due from subsidiaries	23,470,000	16,560,000
	<u>23,470,005</u>	<u>16,560,003</u>
Less: Fair value loss on investment in subsidiaries	(7,045,817)	(5,616,642)
Investments in subsidiaries	<u>16,424,188</u>	<u>10,943,361</u>

The Company meets the definition of an investment entity. Therefore, it does not consolidate its subsidiaries but, rather, recognises them as investments at fair value through profit or loss. The amount due from subsidiaries are designated collectively with the investment at fair value through profit or loss as they are managed and have their performance evaluated on a fair value basis, in accordance with risk management and investment strategies of the Company. The settlement of the amounts due from subsidiaries are at the discretion of the subsidiaries.

As at the reporting date, a fair value loss on the investments in subsidiaries amounting to US\$1,429,175 (2022: US\$4,898,901) was recognised in profit or loss.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023****9. Investments in subsidiaries (cont'd)**Restriction

There are no significant restrictions on the transfer of monies from the subsidiaries to the Company.

Support

The Company has no contractual commitments or current intentions to provide any other financial or other support to its unconsolidated subsidiaries.

Administration charge paid/payable to a related company*	(270,009)	(232,148)

\* These are entities which have common shareholders with that of the Company.

**16. Fair value of financial instruments*****Fair value hierarchy***

The Company categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- (a) Level 1 - Quoted prices (unadjusted) in active market for identical assets or liabilities that the Company can access at the measurement date;
- (b) Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- (c) Level 3 - Unobservable inputs for the asset or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023****16. Fair value of financial instruments (cont'd)**

The following table shows an analysis of financial instruments carried at fair value by level of fair value hierarchy:

	<b>Quoted prices in active markets for identical assets (Level 1) US\$</b>	<b>Significant observable inputs other than quoted prices (Level 2) US\$</b>	<b>Unobservable inputs for the assets or liability (Level 3) US\$</b>
<b>2023</b>			
<i><b>Fair value of financial instruments by classes that are not carried at fair value but for which fair value is disclosed</b></i>			
Loan and interest receivables	–	38,635	–
<i><b>Assets and liabilities measured at fair value</b></i>			
Investments in subsidiaries	–	–	16,424,188
At 31 December 2023	–	38,635	16,424,188
<b>2022</b>			
<i><b>Fair value of financial instruments by classes that are not carried at fair value but for which fair value is disclosed</b></i>			
Loan and interest receivables	–	38,646	–
<i><b>Assets and liabilities measured at fair value</b></i>			
Investments in subsidiaries	–	–	10,943,361
At 31 December 2022	–	38,646	10,943,361

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023****16. Fair value of financial instruments (cont'd)*****Assets and liabilities measured at fair value***

Information about significant unobservable inputs used in Level 3 fair value measurements

The following table shows the information about fair value measurements using significant unobservable inputs (Level 3):

Description	Fair value US\$	Valuation technique	Unobservable inputs
<b>31 December 2023</b>			
<i>Recurring fair value measurement at FVTPL</i>			
Investment in subsidiaries	16,424,188	Discounted cash flow	Revenue growth Discount rate
<b>31 December 2022</b>			
<i>Recurring fair value measurement at FVTPL</i>			
Investment in subsidiaries	10,943,361	Discounted cash flow	Revenue growth Discount rate

In selecting the appropriate valuation models, management determines an appropriate valuation model that best represents the fair value of the investment.

As at 31 December 2023 and 31 December 2022, the Company has used the discounted cash flow method and made assumptions that are based on market conditions existing as at the balance sheet date. The valuation technique used is based on significant unobservable inputs mainly relating to revenue growth and discount rate. A significant increase/decrease in revenue growth and discount rate would significantly affect the fair value measurement. Any fair value or impairment gap will be adjusted down to Net Asset Value.

***Fair value of financial instruments by classes that are not carried at fair value but for which fair value is disclosed***

In 2023 and 2022, the carrying amounts of the non-current loan and interest receivable (Term loan A) are reasonable approximations of their fair values at the balance sheet date as they are repriced frequently.

The fair value disclosed for the loan categorised as Level 2 of the fair value hierarchy.

***Fair value of financial instruments by classes that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value***

Loan receivables (Note 7), interest receivables (Note 8), amount due from related companies (Note 10), cash and cash equivalents (Note 11) and other payables and accruals (excluding deferred interest income) (Note 12).

The carrying amounts of these financial assets and liabilities are reasonable approximations of their fair values at the balance sheet date due to their short-term nature.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements

**17. Financial risk management policies and objectives**

The Company is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, foreign currency risk and interest rate risk. It is, and has been throughout the current financial year, the Company's policy that no trading in derivatives for speculative purposes shall be undertaken.

The following sections provide details regarding the Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

**(a) Credit risk**

Credit risk is the risk of losses that may arise on outstanding financial instruments should a counterparty default on its obligations. The Company's exposure to credit risk arises primarily from loan receivables and cash and cash equivalents. For loan receivables, the Company manages credit risk by requiring security for such loans by way of guarantee and pledge of shares by the related companies. For cash and cash equivalents, the Company minimises credit risk by dealing exclusively with high credit rated counterparties where possible.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023**

---

**17. Financial risk management policies and objectives (cont'd)****(a) Credit risk (cont'd)**

To assess whether there is a significant increase in credit risk, the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. The Company considers available reasonable and supportive forwarding-looking information which includes the following indicators:

- Internal credit rating;
- External credit rating;
- Actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations;
- Actual or expected significant changes in the operating results of the borrower;
- Significant increases in credit risk on other financial instruments of the same borrower;
- Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements; and
- Significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of borrowers in the group and changes in the operating results of the borrower.

The Company determines that its financial assets are credit-impaired when:

- There is significant difficulty of the issuer or the borrower;
- A breach of contract, such as a default or past due event;
- It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; and
- There is a disappearance of an active market for that financial asset because of financial difficulty.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans and receivables have been written off, the company continues to engage enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognised in profit or loss.

The following are credit risk management practices and quantitative and qualitative information about amounts arising from expected credit losses for each class of financial assets.

*Loans at amortised cost*

The Company categorises the loans according to internal credit risk ratings which reflect their credit risk and how the loss provision is determined for each of those categories. These internal credit risk ratings are determined through incorporating both qualitative and quantitative information that builds on information from external credit rating companies, supplemented with information specific to the counterparty and other external information that could affect the counterparty's behaviour.

Where required, the Company computes expected credit loss for this group of financial assets using the probability of default approach. In calculating the expected credit loss rates, the Company considers implied probability of default from external rating agencies where available and historical loss rates for each category of counterparty, and adjusts for forward looking macroeconomic data such as GDP growth and central bank base rates.

**InfraCo Asia Investments Pte. Ltd.****Notes to the financial statements  
For the financial year ended 31 December 2023**

---

**17. Financial risk management policies and objectives (cont'd)****(a) Credit risk (cont'd)**

As disclosed in Note 7, due to certain regulatory issues which led to the revocation of its license to operate, the Company has recorded an impairment loss on the term loan in 2021, but recovered a portion of the loan and wrote off the remaining balance in 2023.

*Exposure to credit risk*

At the end of the reporting period, the Company's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the balance sheet.

*Credit risk concentration profile*

At balance sheet date, there were no significant concentrations of credit risk, except for the loans to third-party companies. These loans have been secured by way of guarantee and pledge of shares by the related companies.

**(b) Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Company monitors its liquidity risk and maintains a level of cash and bank balances deemed adequate by management to finance the Company's operation.

Except for the non-current other payables that relate to deferred interest income, all of the Company's financial liabilities are payable within one year or less from the end of the reporting period based on contractual undiscounted repayment obligations.

**(c) Foreign currency risk**

The Company has transactional currency exposure arising from transactions that are denominated in a currency other than the functional currency of the Company. The foreign currencies in which these transactions are denominated are mainly Singapore Dollar (SGD), Great British Pound (GBP) and Indian Rupee (INR). The foreign currency exposure for transactions in other foreign currencies are not material.

**(d) Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk arises primarily from their interest-bearing loans given to third party borrowers. As at 31 December 2023 and 2022, the Company had no loans to third parties bearing interest at floating rates.

**InfraCo Asia Investments Pte. Ltd.**

**Notes to the financial statements  
For the financial year ended 31 December 2023**

---

**18. Capital management**

The primary objective of the Company's capital management is to ensure that it maintains a healthy capital structure in order to support its business and maximise shareholder value.

The Company manages its capital structure, defined as share capital and accumulated reserve, and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 31 December 2023 and 2022.

**19. Events occurring after the reporting period**

In 2023 many of the countries in which the Company works continued to face considerable challenges which have continued into 2024. On a macroeconomic level, our markets and active and potential clients continue to be impacted by ongoing high interest rates and inflation, rises in commodity and food prices and the disruption of global supply chains on the back of ongoing conflicts in Russia-Ukraine and the Middle East.

None of these factors have led to any post balance sheet events that would need to be disclosed or reflected in these results. The Company continues to closely monitor global and regional events and actively consider the impact of these on the Company and its investments.

Other than the above, the Company has not identified any other post balance sheets following the year ended 31 December 2023.

**20. Authorisation of financial statements for issue**

The financial statements for the financial year ended 31 December 2023 were authorised for issue in accordance with a resolution of the directors on 28 March 2024.
